## VISION

Imparting quality education to students in terms of knowledge, skills, ethics and values for becoming responsible human beings in society.

## MISSION

- To disseminate knowledge to meet professional challenges.
- To provide life skills amongst the students.
- To impart ethics, values among the students.

**Principal**

## Department of Artificial Intelligence and Data Science

### VISION

To be acknowledged globally as a department rendering quality technical education that eventually makes constructive contribution to society.

### MISSION

- To develop human resource with sound knowledge on every aspect of artificial intelligence.
- To enhance the students learn spirit leadership quality and innovation to serve industry.
- To build up society by motivating students to solve the real world problems.

**HOD**

## Department of Artificial intelligence and Data Science Engineering

## Program Educational Objectives (PEO)

**PEO1:** Apply analysis, predictions, optimization, decision making and develop skills in order to formulate and solve complex Intelligent computing and multidisciplinary problems.

**PEO2:** Take up higher studies, research and development and other creative efforts in the area of Machine learning.

**PEO3:** Use their skills in an ethical and professional manner to raise the satisfaction level of stake holders.

## Program Specific Outcomes (PSO)

**PSO1:** Apply the skills in the areas of Health Care, Education, Agriculture, Intelligent Transport, Environment, Smart Systems & in the multi-disciplinary area of Artificial Intelligence and Machine Learning.

**PSO2**: Demonstrate engineering practice learned through industry internship to solve live problems in various domains. Software applications for problem solving.
